## Heavy rain and flood alert in United Kingdom

Valid: from 11 to 13 February 2026

### Affected Areas

Western and Northern Ireland (including Cork, Wexford, and Dublin regions), Northern Ireland, western and northern Scotland (including Highlands, Western Isles, and Aberdeen area), extending into Wales, southwest England, and parts of central England.

### Hazard Types

Heavy Rainfall, Strong Winds, Coastal Gales, Localized Flood Risk

### Hazard Summary

A deep Atlantic low (~28.8 inHg) west of Ireland is driving strong winds and spiral rainbands eastward, bringing periods of heavy rain, gusty coastal winds, reduced visibility, and localized surface-water flooding, particularly across Ireland and western Scotland.
