## P R E F A C E

The Reconstruction and Rehabilitation Programme implementation took off in April 2006. By that time, ERRA had already gained momentum in the planning and strategy development and started devolving responsibilities with due focus on building capacity of its affiliates, SERRA/PERRA and DRUs.

The enormity, complexity and diversity of reconstruction and rehabilitation programme afforded unparalleled experiences that opened new avenues for learning to people within the organization, as well as to stakeholders, development practitioners, planners and managers, academic institutions and international community. One such avenue led to the development of District Profiles of the nine earthquake affected districts.

The impediments faced in collecting accurate data for damage assessment of the earthquake and for planning reconstruction strategies was a sufficient indicator for ERRA to address the deficiency timely and pragmatically to ensure that such a situation would not be repeated in the future.

Therefore, ERRA, together with its affiliates SERRA/PERRA and DRUs, initiated compilation of available district specific data/information on relevant socio-economic and physical indicators in the form of District Profile to serve as a baseline and a reference point for planning and monitoring progress of work.

The first District Profile has been completed in July 2007. It will be updated regularly with information received from the field through MIS reporting mechanism on the progress of each programme sector with necessary analysis.

The document, it is hoped, will become a useful source of information on district's progressive development under the reconstruction and rehabilitation programme.

I avail this opportunity to thank ERRA team and its affiliates for dedicating their time and efforts to prepare the document, and our development partners for their encouragement and support in the process.

Altaf M. Saleem  
Chairman

## ACKNOWLEDGEMENTS

The Earthquake Reconstruction and Rehabilitation Authority (ERRA) is grateful to the Government of Azad Jammu and Kashmir (AJK) and the Government of the North West Frontier Province (NWFP), State/Provincial Reconstruction and Rehabilitation Agencies (SERRA/PERRA), District Reconstruction Units (DRUs) and line departments for their cooperation and practical assistance in the collection, verification and consolidation of information for the District Profile.

ERRA is also thankful to UN-WFP and NESPAK for jointly providing useful maps for the districts, which are part of the profile.

Contributions and support by various Wings and Cells within ERRA to Knowledge Management Team in the process, is duly acknowledged.

Finally, it was a collective effort by the larger ERRA family that had received tremendous support from its partners in development, the G-7 group of donors. ERRA fully acknowledges their support.

Lt. Gen. Nadeem Ahmed  
Deputy Chairman  
ERRA

Khadija Khan  
Chief  
Knowledge Management

## EXECUTIVE SUMMARY

The District of Kohistan is one of the less developed areas of the country. Therefore, using the opportunity of reconstruction and rehabilitation after the 2005 earthquake, the Government of Pakistan has decided to invest a significant amount of money in the development besides rebuilding the destroyed/damaged structures and lost assets.

The information available in the District Census Report of 1998 needs to be updated for the purpose of better planning; however, Earthquake Reconstruction and Rehabilitation Authority (ERRA) with the assistance of its affiliates Provincial Reconstruction and Rehabilitation Agency (PERRA) and the District Reconstruction Units (DRUs) collected relevant statistics from various sources including the Preliminary Damage Assessment to have a sense of existing situation.

Most of this updated information is being provided in the District Profile document.

Area-wise, Kohistan is a large district spread over 7492 sq km with a population density of 63.1% per sq km. The average household size is 6.4 persons.

According to 1998 Census, socio-economic indicators of Kohistan are lowest in the country. For example the total literacy rate is 11.1% only. The total enrollment ratio is 6.89%; it is 10.60 for male and 1.34% for female. More than 70% of labor force is self employed in woodcutting, small farms and mines.

There are 50% housing units consist of one room only. The earthquake destroyed some 12000 units which are being rebuilt by the owners with the financial assistance of the government through ERRA.

The meager livelihood of Kohistan population was affected by the earthquake. The reconstruction and rehabilitation programme is going to focus on restoring and rebuilding the irrigation system, agriculture extension and restoration of roads on sustainable basis under its livelihood programme.

As for the damages to social infrastructure, some 56 schools were fully damaged and 156 were partially damaged whereas 22 health facilities had been fully or partially damaged. All this has to be rebuilt. Similarly, a number of water supply schemes were affected. A comprehensive water and sanitation reconstruction plan includes restoring of these facilities for an estimated cost of Rs. 103.33 million.

Regarding reconstruction or repair of transport infrastructure, electricity and power network as well as the government buildings, the respective programmes provide for improvements to ensure that every facility is being built better than before. For this purpose, the District Government has already prepared a work plan for the period from 2007-2009.

## Chapter 1

### Introduction<sup>1</sup>

The quality of information plays a vital role in better development planning. It becomes more important in a disaster-affected area. The affected districts' damage assessment became a cumbersome exercise due to lack of information at district level and disaggregated data on key socio economic aspects. However, Earthquake Rehabilitation and Reconstruction Authority (ERRA) used the Preliminary Damage Assessment done by the Asian Development Bank and the World Bank in collaboration with the Government Departments, for planning its huge programme encompassing 12 major sectors. ERRA further complemented it with re-assessment where required e.g. in the Housing Sector.

The above experience necessitated compiling a specific document that could provide district specific information to serve as a baseline to track down progress in the future. Hence, the District Profile document was compiled.

#### 1.1 The Landscape and Physical Features of the Area

The District Kohistan lies between 34° 54' and 35° 52'-north latitudes and 72° 43' and 73° 57' east longitudes. It is bounded on the north and northeast by Ghizer and Diamer Districts of Northern areas, on the southeast by Manshera District, on the south by Battagram District and on the west by Shangla and Swat Districts of NWFP.

Kohistan means the land of mountains. In fact there is hardly any plain area. It could be correctly described as all mountains dotted with land. The Indus River cuts through the heart of Kohistan from start to end and divides it into two parts - Hazara Kohistan and Swat Kohistan. These two parts were merged in 1976 to form Kohistan District.

Before it's up gradation to the level of District, the Political Tehsildar of Oghi, looked after Hazara Kohistan. Later on when Battagram was up graded as a subdivision, political Tehsildar of Battagram used to administer it. The Tran Indus (Swat Kohistan), though inaccessible was however affectively ruled by the ruler of the State of Swat through a network of his "Hakims" and "force".

The district is warm in summer except some areas of high altitude and very cold in winter. There is heavy snowfall and temperature generally falls below freezing point. The major crops grown in district are Maize, Wheat, and Rice while Pulses i.e. Mot, Kot, Red Beans and Potatoes are also grown.

No systematic survey for Minerals has been carried out. No known mines exist at present except one chromite mine at Jijal yet to be exploited and extricated for commercial purpose.

<sup>1</sup> 1998 District Census Report of Kohistan

## 1.2 Industry, Trade and Commerce

Majority of the people are associated with agriculture for their livelihood. A number of people are engaged in business. Most of the people depend upon their share in forest.

Literacy rate of the district is very low; however the tendency towards jobs in Government functionaries is increasing that encourages young generation towards education.

The only route for commerce and trade from the district is the Karakorum Highway. The main trading centers are Dubair Bazar, Pattan Bazar, Komila Bazar and Shatial Bazar. All essential commodities like vegetables, food, grain, flour and all the other agriculture and industrial goods are imported to these markets from Swat, Manshera, Havalian and from the cities of Punjab Province. Hides, walnuts, honey, raw wool and desi ghee are sold in a very negligible quantity in these bazaars. Timber is the major export item of the district.

## 1.3 The People

The tribes of Swat Kohistan are divided into two groups, Manzar and Money. Among these, tribes of Dubair, Kandia and Ranolia belong to the Manzar group and those of Banked, Jijal, Pattan, Kayal and Seo belong to Money group. The main tribes on the left bank are Koka Manke Khel and Darram Khel. They are of cognate origin and do not convey clear territorial division.

## 1.4 Roads

The Karakorum highway runs from one end of the district to the other. The High Way enters the District Kohistan about eight kilometers up from Besham. It runs along the right bank up to Komila (85 km) and the left bank (82 km). The KKH leaves the District about five kilometers ahead of Besham. Its total length in the district is 167 km and it is 28 to 33 feet wide.

Kohistan Development Board (KDB) has constructed many link roads after the earthquake of 1974. When the Board was wound up, the communication and Works Department (C&W) took over the work of construction and maintenance of the roads. Since then many roads have been constructed, connecting the interior valleys with the Karakorum Highway.

## 1.5 Telecommunication

There are three exchanges working presently at District Kohistan i.e Dubair, Pattan and Dassu which are being controlled by the exchange of Ghazi-Kot, Manshera. Most of the time these exchanges remain out of order due to climate and the geographic terrain.

## 1.6 Power

In District Kohistan, only three micro-hydel power generators at Jalkot, Dubair and Kayal are working under the supervision of SHYDO (Sarhad Hydro-power development organization).

### 1.7 Administration

Kohistan District consists of three Teshils viz Dassu, Pattan and Pallas. The District Nazim is Chief Executive of the district assisted by Tehsil Nazim Dassu, Pattan and Pallas.

All departments of the district like Finance, Education, Health, Agriculture etc are headed by the respective EDOs under over all control and supervision of the District Coordination Officer. The District Police Officer is responsible for law and order as well as investigation. His jurisdiction includes police station Dassu, Komila, Batera, Pattan, Dubair, Palas and Shatial.

After the enforcement of the Nifaz-e-Sharia Ordinance 1994 in Malakand Division and Kohistan and the subsequent promulgation of Sharia Nizam-e-Adl regulation issued on 16<sup>th</sup> January 1999 with slight amendments, the judicial system throughout Kohistan District is managed through Qazi Courts.

Since no settlement has been carried out in the district therefore, revenue transaction is nominal. Tehsildar/Revenue officers and few Patwaries are entrusted the job of loan recoveries granted by Sarhad Development Finance Cooperation (SDFC) and Zari Traqiati Bank of Pakistan (ZTBP).

### 1.8 Important Places

Supat Valley situated on the east southern side of Jalkot, which touches Kaghan and Narran valleys of Manshera District, is an important site for tourism. It remains covered with snow from September to April. The valley consists of vast plains and that is why horse race competitions among the people are held there. It is also famous for different colorful flowers in spring.

“Seo Mosque” is situated in village Seo at a distance of 10 km from Dassu Tehsil towards north and is centuries old. Its wooden pillars and beams are decorated by carving pictures and flowers on them.

## Chapter 2

### Pre-Earthquake Socio-Economic and Physical Indicators Baseline District Census Report 1998 with updates on Selected Indicators

#### 2.1 Overview

The population of Kohistan District according to 1998 census report is 472,579 with an average annual growth rate of 0.09%. Kohistan comprises of three Tehsils (Dassu, Palas and Pattan). Dassu has the highest population of 184,746 persons, with 102,800 male and 81,880 female. Tehsil Palas comprises of 165,613 people, with 92,330 male and 73,283 female. Tehsil Pattan has the total population of 122,244 with 66,746 male and 55,465 female respectively.

The total area of the district is 7492 sq.km with population density of 63.1 persons per square kilometer. The average household size is 6.4 persons. According to 1998 census report the whole district consists of rural population.

The District Headquarter (Dassu) and the Sub-divisional Headquarters (Pattan & Palas) have the characteristics of urban areas but none of them have been declared as urban area so far.

The disabled persons constituted 1.05% of the total population of the district, among them 0.47% are female and 0.58% are male.

The literacy rate of the district among the population aged 10 years and above is 11.1% whereas the literacy ratio among male and female is 17.23% and 2.95% respectively. The proportion of working or employed population is 26.47% recorded as 70.53% of the total labor force. Out of the total employed population, 71.60% are self employed, 10.68% working as employees and 17.32% are unpaid family helpers.

According to 1998 census, 53.53% of the population aged 18 years and above have obtained National Identity Cards which means that almost half of the population of age 18 and above are still not possessing National Identity Card.

The total housing units of the district were 73,622. More than 49% of the housing units in Kohistan District are single room houses and 26.29% of the housing units have two rooms. There are 6.79% houses with 4 rooms and 4.79% houses with 5 or more rooms in the district. The predominant roof material used by 74.29% housing units in the district is wooden log/bamboo while 1.62% of the housing units have their roofs constructed with RCC/RBC. Hardly, more than 1% of the housing units have constructed their roof with cement/iron sheet. The district has 55.83% housing units with outer walls in the standard category of backed bricks/blocks and cement bonding while 4.03% of the houses are made of unbaked bricks with mud bonding. The category of wooden outer walls houses consists of 26.37%. The unspecified category of material is used in 3.77% housing unit.

## 2.2 Sector Specific Information

The information given in the following tables to establish a pre-earthquake baseline is primarily taken from District Census Report 1998, on District Kohistan. It has been updated, wherever possible with the help of information from various other sources.

Table 1

**Statement for prior clarification:**

The Third Chapter comprises of figures and statistics on Extent of Damages and Reconstruction Plans which have been taken from the Preliminary Damage Assessment Report by ADB/WB, ERRRA's Sectoral Strategy Documents and input from the respective DRU. Moreover, figures of 2nd assessment carried out in Housing Sector have been incorporated. Data regarding power sector has been taken from AJKED. The exercise for specific need-base re-assessments and reconciliation of project level planning is underway. Any new project identified and agreed upon by ERRRA will be incorporated in the strategies in due course of time.

## Chapter 3

### Extent of Damages due to Earthquake and Sector-Wise / Year-Wise Reconstruction Plan

The damage due to earthquake was not colossal in the Districts of Shangla and Kohistan; however, there was still some damage to social and physical infrastructure that needed to be rebuilt. Besides, the Government of Pakistan, in view of the development needs of the area, decided to make a significant investment in order to uplift the overall status of these districts. The sector wise extent of damages and Reconstruction plan is being given below.

Due to October 8<sup>th</sup> Earthquake the number of deaths in District Kohistan was 596. There were 1160 persons who were injured. According to the information provided by DRU Kohistan, 51.9 million rupees have been paid as death compensation in the district.

#### 3.1 Housing Sector

##### i. Extent of Damages

In District Kohistan, private housing sector suffered some loss. Out of 73,622 households, 19,251 housing units were affected by the earthquake. The details of the destroyed, partially damaged and negligible damages are provided in the table mentioned below:

Destroyed		Partially Damaged		Negligible Damage	
No.	%	No.	%	No.	%
11936	62	4865	25	2450	13

Source: 1998 District Census Report

##### ii. Reconstruction Plan

The reconstruction plan of District Kohistan is a part of the overall Housing Reconstruction Strategy. ERRA with the assistance of Army carried out a housing survey and engaged NADRA to establish a database that was used as a mechanism for screening the applications for eligibility and for progressive disbursement regarding financial assistance for the reconstruction of private housing.

During the relief phase, the first installment of Rs.25000 was made to assure housing compensation to all those people whose houses were identified as fully or partially damaged. Till January 2007, 10199 families have been provided Rs. 104.832 million in the form of housing compensation.

### 3.2 Livelihood

#### i. Extent of Damages

District Wise detail of damages to livelihood of people is not available. However, according to preliminary estimation, there were direct and indirect damages to almost all sectors of formal and non-formal employment as well as agriculture which is the mainstay of economy in Kohistan.

Besides losing physical livelihood means, people lost intangible social assets i.e. capacity to work in environment that could take considerable time to be revived to earlier status, a part of damages to livelihood could be gauged from the extent of efforts under taken to revive the livelihood of people over a period of time.

Extent of Employment Losses - NWFP			
Sectors	Pre-Earthquake	%	Empl. Loss
Agriculture and Forestry	3,59,110	32	1,16,003
Mining	2,933	39	1,157
Manufacturing	14,515	34	4,881
Utility	6050	32	1,926
Construction	73,292	32	23,781
Trade	59,482	34	19,932

Other	22,406	31	6,936
Total	771,006	25	1,92,385

Source: ADB/WB Pakistan 2005 Earthquake - Preliminary Damage and Needs Assessment

Extent of Damages to Crop, Livestock and Irrigation Sector - NWFP			
	Direct Damage	Indirect Damage	Total Loss
Crop	746.8	182.8	929.6
Livestock	3933.8	2370.0	6303.8
Irrigation	83.7	-	83.7
(Rs. in million)	4764.3	2552	7317.1
(US\$ in million)	80.2	43.0	123.2

Source: ADB/WB Pakistan 2005 Earthquake; Preliminary Damage and Need Assessment

## ii. Reconstruction Plan

### a. Livelihood (Cash Grants) Programme

The immediate intervention made under the Livelihood Programme was its Cash Grants Programme that focused on provision of cash grants to vulnerable families, selected on the basis of an eligibility criteria, primarily to meet the immediate food and non food needs of the affected families over a period of six months.

The Programme has been implemented progressively in all affected Union Councils between September 2006 and June 2007 and a fixed amount of Rs 3000 per month has been provided to families fulfilling the criteria. An extension of the Programme for another six months has been approved. The extension shall cover only most vulnerable families of District Kohistan.

The total eligible families are 12,669, from 13 union councils out of 38 total Union Councils in the District. These Union Councils are Batera, Peach Bela, Kolai ,Kuzparo, Madakhail, Sharakot and Shareed of Palas sub-Division, five union Councils of Pattan sub-Division i.e. Banked, Ranolia, Jijal ,Pattan and Kayal while only one union council (Bariyar) of Dassu Sub-Division.

### b. Livelihood Core Programme

The Livelihood Core Programme strategy focuses on rehabilitation of primary small business and employment. The strategy is based on a participatory approach where by villages/ communities will be assisted to prepare community livelihood rehabilitation plans which shall be a set of prioritized needs, production, replacement and repair of damaged transitional irrigation systems, restoration of small access roads, rehabilitation of agricultural extension, reinstating emergency employment centre and provision of micro finance facilities.

The DRU based livelihood coordinators shall be the focal persons to lead the planning and implementation process. Livelihood coordination forums, consisting of all projects and NGOs involved in livelihood related activities shall be the main coordination and approval mechanism. The district specific projects plans are in process.

## c. Irrigation Sector

### i. Extent of Damages

The extent of damages to the irrigation sector in District Kohistan has been shown in the following table:

Item	Length (ft)
Harban Irrigation Channel	60,000
Thoti Dara Channel Kandia	10,000
Seemo Seer Channel Kayal	13,000
Kolai Irrigation Channel	20,000
<b>Total</b>	<b>103,000</b>
Source: Internal Sources of DRU, Kohistan	

**ii. Reconstruction Plan:**

The cost of the reconstruction plan in District Kohistan has been shown in the table below:

Year wise Reconstruction Plan Irrigation Sector-Kohistan			
Projects	Length (ft)	Estimated Cost(M)	Year-1
Harban Irrigation Channel	60,000	12.00	60,000
Thoti Dara Channel Kandia	10,000	02.00	10,000
Seemo Seer Channel Kayal	13,000	05.00	13,000
Kolai Irrigation Channel	20,000	03.00	20,000
Total	103,000	22.00	103,000

Source: Internal Sources of DRU, Kohistan

**d. Agriculture Sector****i. Extent of Damages**

Agriculture is the main and major sector of Kohistan District area, which has three other departments i.e. Livestock, water Management and Fisheries .The Fisheries department has already been included in environment sector.

Extent of Damages to the Agriculture Sector		
S. No.	Component	No. of Scheme
1	Agriculture Extension	3
2	Livestock	10
3	Water Management	09
	Total	30

Source: Internal Sources of DRU, Kohistan

**ii. Reconstruction Plan**

The year-wise financial plan for reconstruction of Agriculture Sector is given in the following table:

Reconstruction Plan Agriculture Sector			
Component	No. of Scheme	2007-08	Estimated Cost
Agriculture Extension	3	3	03.880
Livestock	10+8(New)= 18	18	21.281
Water Management	09	09	01.00
Total	30	30	26.161

Source: AWP 2007-08

### 3.3 Education

#### i. Extent of damages

The damages to educational infrastructure in District Kohistan include 210 schools which were either destroyed or partially damaged. The following table shows damages to educational facilities in District Kohistan.

Extent of Damages to Education Sector				
Primary and Higher Secondary Education Institutions, Kohistan	Boys	Girls	Total	Grand Total
	Fully Damaged	43	13	56
Partially Damaged	118	36	154	154
Total	161	49	210	210

Source: Internal Sources of DRU

#### ii. Reconstruction Plan

The reconstruction plan focuses on building the government education facilities over a period of three years. Under the policy of 'Build Back Better', specific seismically resistant building designs have been developed. The plan includes state of the art equipment and facilities for both students and teachers.

Education Sector-Reconstruction Plan				
Category	No. of Damaged Institutions	Year - 1	Year - 2	Year -3
		2006-2007	2007-2008	2008-2009
Govt. Primary School (Boys)	130	42	42	46
Govt. Middle School (Boys)	22	08	09	05
Govt. High School (Boys)	09	04	05	
Govt; Girls Primary School	46	16	11	19
Govt; Girls Middle School	02		02	
Govt; Girls High School	01		01	
Hostel (New)	20	07	07	06
Total:	230	77	77	76

### 3.4 Health

#### i. Extent of Damages

The damages caused by earthquake to the health infrastructure disrupting the services for general population have been estimated as:

Table 16						
Extent of Damages to Health Sector						
District	No. of Tehsil	Union Councils	Health Facilities			
			Type	Total	Fully Damaged	Partially Damaged
Kohistan	3	38	Rural Health Centers	03	1	1
			Basic Health Units	34	3	17
			Civil Dispensaries	01		
			Leprosy Centers	02		
			T.B Centers	02		
			Dental Care Center	03		
			Total	45	04	18

Source: EDO Health Kohistan

## ii. Reconstruction Plan

Immediately after the earthquake, most of the health facilities were made functional in transitional structures in collaboration with UN and International agencies.

The Health sector strategy focuses on restoring health care infrastructure through rationalized/ integrated reconstruction and seismically safe and user-friendly health facilities. At the same time, it recommends developing packages of services at different level for efficient service delivery.

Table 17						
Year Wise Budget for Reconstruction Plan of Health Sector						
Category	Year - 1 2006-2007		Year - 2 2007-2008		Year -3 2008-2009	
	Reconst:	Repair	Reconst:	Repair	Reconst:	Repair
Rural Health Centers	1	1	--	--	--	--
Basic Health Units	3	14	--	3	--	--
EDO Health Office (New)	--	--	1	--	--	--
Total:	4	15	1	3	--	--

### 3.5 Water Supply & Sanitation

#### i. Extent of Damages

According to the District Census Report 1998, only 12.45% of the housing units were facilitated with drinking water inside the house while 87.55% of the housing unit used outside source as drinking water. The majority of the households were depended on the source of drinking water supply outside the house.

Water Supply Schemes District Kohistan		
Category	No. of Units	Total

Pumping/Tube wells	0	0
Hand Pump	0	0
<b>Total</b>	<b>132</b>	<b>132</b>
No. of PHED owned schemes	38	38
Number of TMAs owned schemes	94	94
Source: Water and Sanitation Strategy Paper		

#### ii. Reconstruction Plan:

Donors and Sponsors have pledged nominal Water Supply and Sanitation schemes. Water and Sanitation is a priority area both for government and communities. Water and sanitation is a priority area both for the government and communities. ERRA WATSAN programme includes, besides reconstruction of infrastructure, components for waste management, reconstruction of building, training of communities in seismic resistant building designs and hygiene as well as capacity building of concerned line departments.

Table 19

Water and Sanitation Reconstruction Plan and Budget - Kohistan			
S. No.	Item	Description	Estimated Budget ( Rs Million.)
1	Rehabilitation/Reconstruction of WSS / Infrastructure	123 Nos. (38 Public Health Engineering Department, 21 TMA Dasso, 29TMA Pattan&35 TMA Pallas) damaged /destroyed schemes	49.659
2	Rehabilitation/Reconstruction of Sanitation Infrastructure	6 Nos. schemes for Drainage, street pavement, public toilets etc	5.562
3	Solid Waste Management	Design of system and development of site including provision of equipment and machinery	15.00
4	Rehabilitation/Reconstruction of Buildings	Rehabilitation/Reconstruction office/residential Buildings	1.48
5	Water quality monitoring and management	Water quality monitoring and chlorination	13.9
6	Community Mobilization / Hygiene Promotion	Workshops, Meetings, Community Sessions, Promotional Material	3.45
7	Project/Contract Staff Salaries	Incremental Project Staff	2.51
8	Vehicles	4 WD Cab SSR and Motor Cycles	6.40
9	Equipment and Material	Computer equipment, Office furniture etc	1.25
10	Consultancies / TA	Technical Assistance for supervision of quality assurance	1.25
11	Training	Training on design and construction for earthquake resistant water and sanitation infrastructure	0.5
12	Outstation Travel		0.54
13	POL		0.90
14	O&M	Operations and Maintenance cost of vehicles and equipment	0.90
15	Contingencies		1.88
Total (Million Rs.)			103.33

### 3.6 Governance (Administrative Infrastructure)

#### i. Extent of Damages:

The administrative infrastructure system in the District Kohistan was also affected by the destruction caused due to Earthquake Oct, 2005.

#### ii. Reconstruction Plan

The first priority of ERRA in its programme for the governance sector is to reconstruct and rehabilitate public office /residential buildings. The reconstruction of government buildings has been rationalized to make functioning more efficient and accessible for public convenience. The three-year financial phasing has been done considering the

quantum of work and capacity of the district to execute the reconstruction plan. According to the phasing, Rs.26.4648 million funds will be applied in the first year while Rs.22.872 million of total estimated cost will be undertaken during the second year.

Reconstruction Plan- Governance Sector				
Kohistan				
No. of Buildings	Area in sq. ft.	Reconstruction Cost	Consultancy / Equipment Cost 20%	Total
13 (5 No. Reconstruction & 8 Nos. Repair)	20980	41,114	8,2228	49,3368
		80%	20%	100.00%

### 3.7 Power (Electricity)

#### i. Extent of Damages:

In District Kohistan some damages were recorded by the Sarhad Hydro Power Development Organization (SHYDO), where 3 microhydel power generators at Jalkot, Dubair is and Kayal under the supervision of SHYDO, which are in working condition, and were affected due to the earthquake.

#### ii. Reconstruction Plan:

PESCO holds responsibility for electricity distribution in the affected districts of NWFP (Abbottabad, Mansehra, Battagram, Kohistan and Shangla). It manages both the STG and distribution (11 kV and 0.44 kV) networks, provides consumer connections, and handles billing, collection and other operational matters.

Reconstruction Plan for Electric-Power Distribution Infrastructure		
Project	Name of Scheme	Estimated cost
Jalkot HPP	Rehabilitation & Reconstruction of Electrical Power Channel Jalkot	0.036\$
Dubair HPP	Rehabilitation & Reconstruction of Electrical Power Channel Dubair	0.005\$
Jalkot HPP	Access Roads	0.003\$
Kayal HPP	Access Roads	0.007\$

Source: Power strategy July, 2006

### 3.8 Transport Sector

#### i. Extent of Damages:

The total length of Works and Services and Tehsil Municipal Roads damaged due to the earthquake has been estimated as follow:

Extent of Damage to Transport (Road) Sector							
Kohistan							
Highways (in km)	Major Roads (in km)	Link Roads (in km)	Rural Roads (in km)				Number of Structures
			Stone Sole	Black Top	Total	Bridges	
00	00	222	107	757	329	09	00
	Works & Services (W&S)		Tehsil Municipal administration (TMA)				TMA/ W&S

Source: Tv Strategy, 2006

#### ii. Reconstruction Plan:

Priority criteria have been developed in the Transportation Strategy to start work on selected roads as early as possible through the concerned departments, which are the Works & Services and Tehsil Municipal Administration for construction and repair link and rural roads.

Year Wise Proposed Budget for Transport Sector			
Year / Target	2006- 2007	Total	Cost (Rs. Million)
Length of Road (km)	329	329	1313.496
No. of Bridges	09	09	
No. of foot Bridges and Culverts			
	100%	100%	

Source: Internal Sources of ERRA, Transport Strategy

### 3.9 Environment

#### i. Extent of Damage

In the Palas conservation area although no accurate damage assessment has been done for wild life but phenomenon of land slide and destabilization of slope would inevitably have negative bearing on nesting and feeding areas of wild life. Various hatcheries and fish farming activities have also been affected due to damages.

Extent of Damages to Environment Sector		
S. No.	Sector	No. of Buildings
1	Wild Life	4
2	Fisheries	1
3	Forest	3
4	Watershed Division	2
Total		10

Source: Internal Sources of DRU.

## ii. Reconstruction Plan

The reconstruction plan focuses on Government building of Wild Life and Fisheries Department over a period of three years. The combined district phasing of reconstruction work is as follows:

Year Wise Reconstruction Plan - Environment Sector				
Sector	No. Of Buildings	Covered Area in sq. ft.	Year-II 2007-2008	Estimated Cost (M)
Wild Life	4	1500 sft+1rft	4	6.40
Fisheries	1	Various	1	4.20
Forest	3	Rehabilitation of Various Buildings	3	0.989
Watershed Division	2	Rehabilitation of Various Buildings	2	0.617
Total	10		10	12.206

Source: Governance Strategy, 2006
