

July 07, 2025

Global Alerts – Central Zone

Extreme Rainstorm

Affected Areas

Munich, Vienna, Austria

Duration

July 07 - July 09, 2025

Hazard Types

Intensive Rainfall and thunderstorm

Hazard Summary

It is expected that there will be a thunderstorm weather process in all towns and streets of our county from this afternoon to night, which may cause lightning disasters. During thunderstorms, gusts of 7-9 levels and locally 10 levels may occur, accompanied by short-term heavy precipitation and small hail in some areas. Please take precautions!
