

July 18, 2025

Global Alerts – Central Zone

Extreme Rain Fall

Affected Areas

Inner Mongolia, Hinggan, Hulunbuir, China

Duration

18– July 20, 2025

Hazard Types

Intensive Rainfall and Thunderstorm

Hazard Summary

A strong weather system is forecast to affect Inner Mongolia, including Hinggan and Hulunbuir, China, bringing moderate to heavy rain and isolated thunderstorms. Wind gusts may reach 90–100 km/h, with the potential for hail in some areas. Residents are urged to stay indoors during peak storm periods and avoid unnecessary travel. Ensure outdoor items are secured, emergency supplies are prepared, and avoid taking shelter under trees or near metal structures during lightning.
