

March 15th, 2025

Global Alert West Tornadoes, US (East America)

Issued for: Virginia, North Carolina, South Carolina, Maryland, Delaware, New Jersey, Pennsylvania (partially), New York (partially)

Duration

March 16th, 2025

Hazard Type:

 Tornado

Description:

This radar image shows a strong storm system along the U.S. East Coast, with multiple tornado warnings in Virginia and North Carolina. These tornadoes are likely embedded within severe thunderstorms, producing strong winds, heavy rain, and potential flash flooding. Residents in the warned areas should seek shelter immediately.
