3. All PDMAs / SDMA / GBDMA / ICT Administration, Military Operations Directorate, GHQ, Rescue 1122, NHA/ FWO and line departments remained in coordination with NEOC, NDMA and passed on information/ updates about the situation through respective Emergency Controlled Rooms (EOCs). In light of directions from NEOC, proactive deployment of machinery was ensured by all concerned; line departments, NHA, FWO in coordination with local administrations/ DDMA, which enforced precautionary measures through LEAs/ Levis. SITREPs issued by respective PDMAs are enclosed as Annex E, F and G, while pictorial overview of various incidents is enclosed as Annex H.

4. All major road arteries are currently open, and all blockages caused by landslides and nullah flows were restored after reduction in water levels, clearance of debris and through restoration of damaged diversions by employment of NHA/ FWO and resources of line departments. A special impact based agro-met advisory was issued by NDMA and circulated to all concerned to forewarn farmers and prevent possible damages to standing/ harvested

crops in areas where rain/ wind/ thunderstorm was forecasted. All EOCs remain connected with NEOC and are sharing regular information/ updates over the precautionary measure already undertaken and in response to any incident.

2. In light of the forecast shared by PMD, following region-specific impacts are expected. Therefore, all concerned stakeholders are to remain vigilant against possible hazards.

- a. Dust-windstorm & Hailstorm may cause damage to loose infrastructure and standing crops (particularly wheat crop). Farmers should perform their activities keeping in view the weather forecast.
 - b. Landslides / Flash Floods may occur in Chitral, Dir, Swat, Kohistan, Gilgit Baltistan, Kashmir, Murree and Galliyat on 18 and 19 April 2023.
3. Apropos, all PDMA's / GBDMA / SDMA and ICT Administration, NHA, NH&MP, FWO, Rescue 1122, line departments, Ministries and Federal agencies are required to undertake

measures as per respective mandate. However, following is to be ensured by all concerned in addition to measures deemed appropriate as per on ground situation/ requirements: -

- a. Ensure widespread circulation of alerts and advisories, especially in local languages, to raise awareness and sensitize travelers / tourists and local communities in at-risk/ vulnerable areas.
 - b. Engage local communities at traditionally / historically dangerous / hazard-prone sites to enable round the clock monitoring and establish feedback mechanism for early warnings and alerts for at-risk population.
 - c. Ensure adequate awareness for farmers regarding impacts on standing crops.
 - d. Coordinate with relevant district and municipal administrations to ensure mitigation measures for flash flooding and to secure or remove billboards/ hoardings in view of thunderstorm/ high winds/ hailstorms.
 - e. PDMA / DDMA's to arrange and preplace necessary inventory and other essentials at strategic locations / vulnerable/ choke points in coordination with NH&MP / NHA / FWO, local C&W, Rescue 1122 and line departments.
 - f. Ensure a pro-active approach by diverting traffic, providing alternate routes, imposing move / travel restrictions, to avert any situation of road closure with stranded people.
 - g. Local administrations to assess and plan deployment of additional resources and exercise control over traffic leading to and in vicinity of vulnerable / choke points / tourist spots / attractions and securing (by physical means and keeping people away) from loose infrastructure such as buildings under constructions and advertisement hoardings etc to prevent losses / damages and save precious lives.
 - h. Travelers on Provincial & National Highways in at-risk / affected areas be forewarned of adverse conditions and detoured to safe waiting areas under guidance of respective PDMA's, Local Authorities, National Highway & Motorway Police, LEAs etc.
 - i. Ensure availability of emergency services personnel during the forecasted period.
 - j. Ensure immediate stocking of basic commodities including paramedics & medicine especially in regions that are likely to get cut-off during snowfall/ landslides.
 - k. Ensure round the clock monitoring of situation through EOCs with regular feedback to PEOCs and NEOC.
 - l. In case of any eventuality, twice daily / routine updates to be shared with NDMA.
4. **Press Information Department Only.** With the request to ensure wider circulation and public awareness.
5. Forwarded for information / necessary action, please.

F.2 (E)/2023-NDMA (MW/Agromet Advisory) - I
Government of Pakistan
Prime Minister's Office
National Disaster Management Authority
ISLAMABAD

Dated: 28 April 2023

Subject: Agrometeorological Advisory – Impact of Rain-Dust-Wind/ Thunderstorms till 5 May 2023

Reference: NDMA Advisory No. F.2 (E)/2023-NDMA (MW/Weather Advisory) – X and PMD Press Release No. NWFC-5(10-A)/2017/37 dated 26 April 2023

In continuation of NDMA Weather Advisory issued on 26 April 2023, subject advisory is being issued to highlight possible impacts of rains-dust-wind/ thunderstorms with isolated heavy falls and chance of hailstorms till **5 May 2023 and identify mitigation measures to prevent/ safeguard against losses/ damages**. Forecast/ model-based depiction of rainfall and dust-wind/ thunderstorms in upcoming days is highlighted in images from PMD for reference of all concerned. Website links for PMD and National Agro-met Centre (NMAC) are also provided below to directly access farmer's advisories/ updates in textual, audio and video formats in both Urdu and English: -

PMD's Forecasted Rainfall (3 days) 28 to 30 April 2023

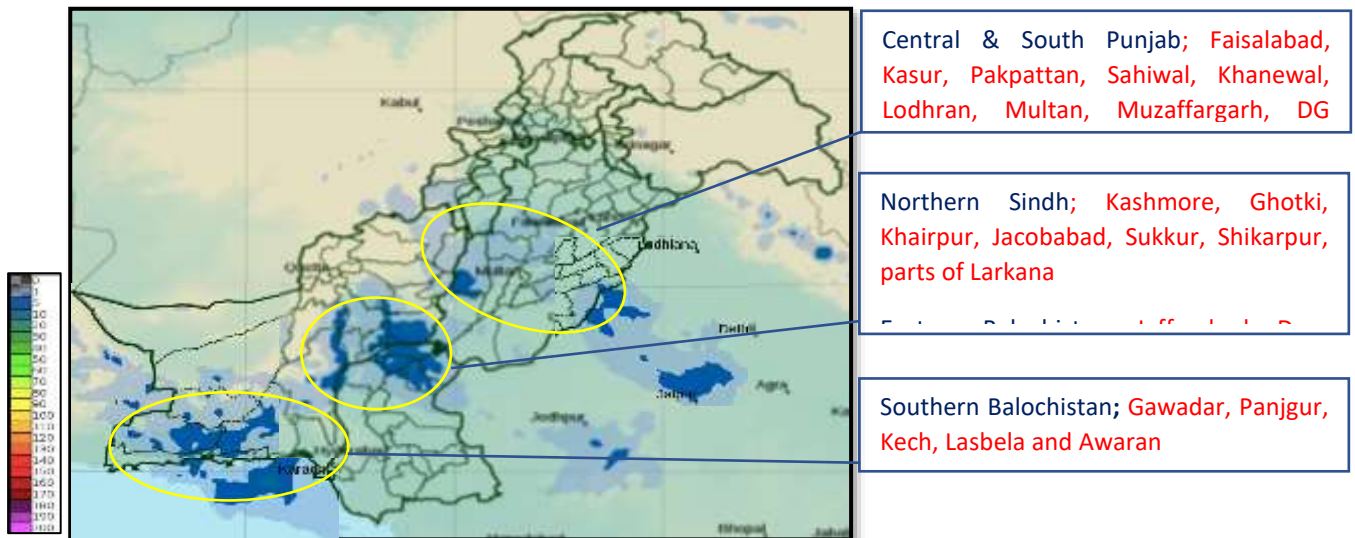

Figure 1: PMD's Precipitation Forecast 3 x Days (28 – 30 April 2023)

NOTE: Forecast is updated daily, therefore all concerned are advised to follow the web-portal of PMD to remain abreast with likely weather patterns

2. **Likely Agricultural / Livestock Impacts**. In light of the forecasted weather system, following impacts are expected: -

- a. **Standing and Harvested Crop**. High winds, heavy rains and hailstorms may cause damage to standing wheat crops and recently harvested crops which is still in open.
- b. **New Harvesting**. With likely heavy rainfalls, high winds and hailstorms new sowing is likely to be adversely affected.

- c. **Fruit Orchard Areas.** High winds and hailstorms may cause damage to recently flowering / budding mango orchards.
 - d. **Vegetable Crop Areas.** Heavy rains / hailstorms may cause damage to vegetable plants / flowering-fruits.
 - e. **Water Requirements.** Considering forecasted precipitation, farmers may rationalize water usage for irrigation purposes.
 - f. **Livestock.** Open grazing will increase risk to livestock, especially sheep/ goats, during periods of high winds/ thunderstorms or hailstorms.
3. **Mitigation Measures.** Apropos, following measures may be considered in addition to any mitigation measures already being undertaken or planned by local administrations/ farmers/ PDMAs/ SDMA/ GBDMA, respective irrigation departments and MoNFS&R to prevent damage/ losses to at-risk crops especially wheat, cotton, gram, sugarcane and mango: -
- a. **Wheat**
 - (1) Harvest according to the weather conditions.
 - (2) In view of the risk of rain, pack the bales in small size/ slightly shorter after harvesting and keep the stalks facing upwards.
 - (3) In such areas where there is no chance of rain, complete wheat harvesting and threshing as soon as possible.
 - (4) Choose a field that is free of weeds to keep the next crop.
 - b. **Cotton.** Stop sowing cotton in case of rain and wait for clear weather. Follow local advisories/ guidelines being issued from respective irrigation departments.
 - c. **Sugarcane.** Complete harvest of sugarcane as soon as possible, since rising temperatures may affect crop growth. Region specific guidelines must be followed to ensure efficient process.
 - d. **Mango.**
 - (1) The process of fruit formation on mango plants is in the final stages and the temperature is gradually increasing, so regular water supply be ensured.
 - (2) Ensure adaptation of mitigation measures to protect fruit during this stage.
 - e. Farmers are advised to take all necessary mitigative and precautionary measures to safeguard their crops / harvest through timely harvesting and ensuring safe storage.
 - f. Livestock especially (sheep/ goat) herders be advised to undertake necessary mitigative/ precautionary measures: -
 - (1) Safe sheltering of livestock during adverse weather conditions.
 - (2) Provision of adequate water and fodder for sheltered livestock.
 - g. Ensure circulation of PMD's Agro-met advisory to all concerned, in local / regional languages.
