## Global Alerts - East Zone

### Heavy Rain Alert – Thailand

#### Affected Areas

Ban Sai Thong, Ban Hua Bueng

#### Duration

May 26 - 27, 2025

#### Hazard Types

Heavy to Very Heavy Rain

#### Hazard Summary

The southwest monsoon over the Andaman Sea, Thailand, and the Gulf is strengthening, and an active monsoon trough is lying across the lower Central, East, and upper South regions. These conditions are expected to cause isolated heavy to very heavy rainfall.
