

March 14th, 2025

Global Alert West

Freezing Rain Weather Conditions (Canada)

Issued for:

Nunavut, Northwest Territories, British Columbia, Alberta, Saskatchewan, Manitoba, Ontario, Quebec, Newfoundland and Labrador, Yukon, Whitehorse, Edmonton, Calgary

Duration

March 15th – 19th, 2025

Hazard Type:

 Freezing rainfall, Snowfall

Description: The image represents a snowfall intensity map of Canada, with color gradients indicating varying snowfall levels. Areas in deep red signify regions experiencing the highest snowfall, particularly in Nunavut, Northwest Territories, Alberta, and parts of British Columbia. The blue and green areas show lower snowfall levels, transitioning to minimal or no snowfall in lighter shades. Major cities like Whitehorse, Edmonton, and Calgary are visible within the affected regions. The map provides a clear visualization of snowfall distribution, useful for weather forecasting and winter hazard assessment.
